ENDOSCOPE REPAIR SERVICE

Cutting Edge Surgical Instruments Ltd offer a comprehensive repair and replacement service for all makes and types of Rigid and Semi Rigid Endoscopes.

All repairs are undertaken by our own fully trained and experienced technicians in our on-site custom built Optical Lab.

Only exact replica parts are used to ensure we maintain, and do not alter, the OEM specifications. Repairs include basic general optical repairs, full optical system replacement and full light refibre. We collect your repairs and deliver them back to you free of charge.

All repairs are returned with a technical report detailing work carried out and any parts used.

All repairs are fully covered by a one year guarantee against faulty workmanship and parts.
